

Fall/Winter 2020

To: Owners, Guests, Staff of Pend Oreille Shores Resorts

*The resort **is open** and we've enjoyed a very busy, happy summer! Everyone has been very cooperative and respectful throughout the summer!*

We are still getting great feedback on all the renovation projects such as pool and pool window wall renovations, boardwalk replacement and the repaving of the entire parking lot that we completed during the COVID situation. Many guests are enjoying the burning boulder (fire pit inside a large boulder) at the waterfront both in the early morning for coffee and into the evening.

The guests are appreciative of the openness of the resort and the ability to self-distance with no elevators or hallways and full kitchens in every unit. Cleaning supplies are provided in all units. Reorganization of activities made it possible for everyone to enjoy the craft classes and other amenities in the comfort of their own units.

Recently, Idaho returned to Phase 3, which limits large gatherings: indoors-fewer than 50 people and outside-25% capacity and required seating for bars and nightclubs. There are no changes in Phase 3 for our particular lodging situation.

Please continue to stay safe by practicing good hygiene habits, social distancing* and staying hopeful! We look forward to seeing you!

Your patience, calmness, and respect for each other is appreciated as we work together to keep all the resort areas operating in a safe and orderly fashion.
